

1. Background - Who we are as a community?

Lexton is a progressive community with many clubs and committees. The Lexton Progress Association(LPA) was the body that acted as the umbrella for other clubs and committees within the community. Now to be replaced by Lexton Future Group.(LFG) Lexton was established in 1845 and is the oldest township in the Pyrenees Shire. It was the closest town to the first official gold discoveries on Cameron's Sheep Run at Clunes in 1851. It was the headquarters for the form Shire of Lexton (1860 – 1994) that included the towns of Amphitheatre, Waubra and other small communities. Lexton amalgamated with the Avoca and Ripon Shires in 1994 to form the Pyrenees Shire. Lexton is a small rural community (approx. 250) on the Sunraysia Highway. It is situated at the crossroads of early Victoria where the road from Sydney to the Western District, "the Major Mitchell Line", was intersected by the road from Geelong into the Wimmera.

The main industry today is the production of fine wool, cropping and farming. During the first half of last century Lexton had a number of apple orchards, as well as almond and cherries being grown. Apples were exported to Europe, in particular England and Germany. There was also a timber mill in the town. Many of Lexton's residents, both men and women, were employed by squatters from the large sheep stations in the areas from the 1850s through to late last century.

Currently the community is a great mix of farmers, rural workers, professionals who commute to work in larger surrounding towns, owner-business operators and retirees. A strong group of young people and children also make up part of this small rural community.

Lexton Community Action Plan 2018 - 2023

2. Our Issues

Mobile Phone Coverage:

The poor coverage also adversely affects this community, forcing residents and others wishing to utilize the mobile network to purchasing more expensive hardware to receive signals and not being able to tap into cheaper sources of internet usage. Completion of the Optus tower will be a major impact on the mobile services and internet usage.

Lexton Town Planning: The Lexton township requires the community to grow if we are to survive and thrive as a town in the future. It is vital that zoning within and around the town is accurate, current and relevant to the growing needs of the community as a rural township. Clear guidelines for building private residences, developing businesses and retaining farms are required. We would require input from the shire and the state planning authority to positively and enthusiastically facilitate prospective new members into the town.

Community Socialisation: Lexton is a small community that has a big heart. Members of our community are very diligent in working within community groups to ensure our town has all the facilities and infrastructure required to keep the community operating. It is vital that the community as a whole celebrates its worth together. The LFG will aim to ensure the community “gets together” regularly (at least biannually) to reinforce community values and also enjoy social activities in conjunction with the various business activities. We will use Lexton Online Notice Board on Facebook as a communication vehicle and other social media vehicles.

Rotunda at Cemetery: As with all other towns, the local cemetery tells the story of the history of the community, the people who lived and died in Lexton and surrounding areas, and also those that came from other communities and countries to end their time at Lexton. More and more people are interested in tracing ancestors or wanting to understand their family ties when someone they know unfortunately passes away.

The rotunda would be the ideal setting to be able to sit and read information boards on the “residents” of our cemetery. It would also be a comfortable place for the elderly or invalided while participating in funeral services at the cemetery. Or just a quiet place to contemplate.

Recreation Reserve: The Lexton Recreation Reserve is an integral part of the community of Lexton. It is home to a number of sporting clubs and provides a community hub to many families in the district. There is a need for overall facility upgrades, new building to be able to cater for many and various groups both small and large. Not continually upgrading our facilities puts the future of sport in our town at major risk: the possibility of not being able to retain players and the continuation of youth participation. One other area that could be an economic

Lexton Community Action Plan 2018 - 2023

driver for the town would be the provision for caravan and camping facilities. Site to be determined. Existing Netball and an additional court to be multi use to cater for Netball, Tennis and basketball

Road to Cemetery: The road to the cemetery has suffered severely from erosion due to the heavy rains. The work done prior to the previous downpours was not sufficient to prevent it eroding again when it rained. It would be beneficial if the road was upgraded properly and sealed to prevent recurrence. This has become a higher priority with the use of the road being seriously affected each time there is rain.

Mapping of the cemetery is in progress. It was considered this should be completed prior to the construction of the rotunda as information from the mapping could be displayed in the rotunda.

Caravans are currently stopping overnight at the wayside stop on Toll Bar Hill just outside town towards Ballarat. It is still anticipated to bring these visitors into the town, staying at the Reserve or elsewhere and enjoying features the community has built up.

Town/Community needs to review how it markets itself and promote events eg Rainbow Serpent Festival , Sporting Events , Social functions.

Installation of sprinkler system to Tollbar Park to prevent the continual theft of hoses.

Town Planning to address , Streetscape i.e. Anzac Avenue, Major Mitchell monument refurbished (historical value), all entrances to town enhanced (more signage eg. Rec Reserve, hall, cemetery) portable signs for activities/events ,signage for Rainbow/incorporate artwork) Liase with Rainbow to organise (to be incorporated into the Lexton Futures Planning document - <https://www.pyrenees.vic.gov.au/files/assets/public/planning/final-pyrenees-futures-plans/pyrenees-futures-lexton.pdf>

Lexton Community Action Plan 2018 - 2023

3. Action Lists

Issue Responded To	Outcome Sought	Priority given to Issue	List of likely actions	Time-frames relating to actions	Who will lead the action	Who will assist	Resources needed? Cost?	How do we know it's done? How will we celebrate	How do we inform the community of progress/results? How do we evaluate?
Hall Re-Flooring & Painting	Floor suitable for all types of dancing and other activities	High	Re-Stumping & flooring. Repainted. Follow up insurance claim outcome	18-24 months	Hall Committee via Peter Wheeler	Hall Committee Members	Contractors	Completion of Project	Invitations to functions – feedback from visitors
Lexton Town Planning	Definitive guidelines with respect to building, industry, farming, etc. Facilitation of building within the town to grow the community	High	Continue meetings and work Town Planner and David Clark	On Hold		Shire Goulburn Murray Water CFA	Refer Lexton Futures link at the bottom of document	Rezoned town plan Set of guidelines.	Progress Minutes Function to celebrate?
Community Socialisation	Increased community interaction not necessarily limited to group meetings	High	Activities to be planned throughout the year	Continual	All community groups		Funding raised through Serpent Festival Other funding to be sourced Costs vary according to activities	Activities well attended by Lexton community	Local Newspaper Lexton Online Notice Board (Facebook) Flyers in Letter boxes Word of mouth
